

12th Congress of the Asian Society of Transplantation (CAST 2011)

Sep 25-28, 2011 SEOUL, KOREA

[Oral Presentation]

1. Oral Presentation Basic 1

9/26 10:30-12:00

The role of donor specific regulatory T cells expanded by interferon-gamma inducible indoleamine 2, 3-dioxygenase (IDO) + plasmacytoid dendritic cell

Tetsuya Ikemoto, Mitsuo Shimada, Tohru Utsunomiya, Satoru Imura, Yuji Morine,
Shuichi Iwahashi, Shinichi Matsumoto

2. Oral Presentation Basic 2

9/26 17:00-18:30

Cytoprotective effect of human adipose tissue derived regenerative cell on porcine islet cells

Shinichiro Yamada, Mitsuo Shimada, Tohru Utsunomiya, Satoru Imura, Yuji Morine,

Tetsuya Ikemoto, Hiroki Mori, Jun Hanaoka, Mami Kanamoto, Shuichi Iwahashi,
Yu Saito, Michihito Asanoma

[Poster Presentation]

1. Poster Presentation "Awards for Poster Presentation"

9/26

The possibility of adipose-derived regenerative cells for an alternative therapy for liver failure

Yu Saito, Mitsuo Shimada, Tohru Utsunomiya, Tetsuya Ikemoto, Shinichiro Yamada,
Yuji Morine, Satoru Imura, Hiroki Mori, Jun Hanaoka, Koji Sugimoto, Michihito Asanoma

2. Poster Presentation

9/26

Impact of left lobe graft on adult living donor liver transplantation: small-for-size graft is not a risk factor for short and long outcome

Yuji Morine, Mitsuo Shimada, Tohru Utsunomiya, Satoru Imura, Tetsuya Ikemoto,
Jun Hanaoka, Yu Saito, Shinichiro Yamada, Michihito Asanoma
